Human Resources

To Whom It May Concern:

This letter of recommendation is on behalf of Camee Faulk. It is my pleasure to write this letter for her. I first met Camee several years ago when she was hired as the Drama/Theatre teacher for Kearns High School.

She was hired at that time for her ability to: work well with all stakeholder groups, quickly evaluate & assess the needs of her students & program, to provide a thorough theatrical experience for all students, & to rebuild/re-establish the Drama Program at KHS. She has lived up to & exceeded my expectations in all areas.

Camee has established a new, deeper, & higher norm of what our students can produce & present on stage & in the classroom. She has broadened the theatrical horizons of our students, school, & community. In this process, Camee has strengthened the role & participation of parents & of the local professional & academic theatrical community.

As a high school administrator with a Fine Arts background, I continue to be impressed with the depth of our students experiences as well as their understanding of the importance historically & culturally of the literature presented. This is due to Camee's positive relationship with her students & her ability to motivate students towards excellence. She also demonstrates a highly proficient use of resources including technology, PLC's, Performance Based Grading, State Curriculum Standards, & other best practices. If she was returning to the Granite School District, I would hire her without reservation.

If I can be of further assistance, please contact me.

Sincerely,

BRETT J. HANSEN

Assistant Principal – Kearns High School
